## PACKING TIPS FOR MACY'S TRIP

NOVEMBER 25-30

As far as what to pack, clothing wise, we will be outside a fair amount on this trip. The weather in New York City during late November is generally on the colder side, temps in the 30-40's with inclement weather always a possibility. We suggest bringing a heavier coat, hat, scarf, and gloves. Layering clothes under your coat is always a good idea. That gives you the flexibility to adjust as the weather dictates. We will provide more definitive information on the weather forecast as we get closer to leaving.
